

ALIKO FRONT SUPPORTS AND SHEET FOLLOWERS

ALIKO
Press brakes from Finland

Vertical adjustment lightened with gas cylinder

Movement by electrical cylinders, manual adjusting between programs not needed

STANDARD FRONT SUPPORT

- Payload 250 kg/pc
- Vertical adjustment lightened with gas cylinder, adjustment range 250 mm
- Light lateral transfer with linear guides
- Sliding plastics on the surface of the front brackets
- Not connected to a power source, easy to add or remove

HEAVY DUTY FRONT SUPPORT

- Payload 1000 kg/pc
- Vertical adjustment lightened with gas cylinder, adjustment range 300 mm
- Light lateral transfer with linear guides
- Sliding rollers on the surface of the front brackets
- Not connected to a power source, easy to add or remove

STANDARD CNC SHEET FOLLOWER

- CNC-controlled front workpiece support
- Max static load 300 kg/pc
- Max lift 200 kg/pc
- Support area width 350-600 mm, length 1350-2000 mm
- Up/down movement 250 mm
- Maximum angle and bending angle 60°
- Fully automatic adjustment

HEAVY DUTY CNC SHEET FOLLOWER

- CNC-controlled front workpiece support
- Max static load 1000 kg/pc
- Max lift 500 kg/pc
- Support area width 350 mm, length 900-1400 mm (aprox 2 m from the bending line)
- Up/down movement 200 mm
- Maximum angle and bending angle 60°
- Fully automatic adjustment
